CSA v3 corrected pilot · 2 mm / 20 ms · 100 events per sample
Double beta
Single electron
Fraction of cells / bin
Expected S/N per positive pixel–frame
Events with an affected pad (%)
Local response loss criterion (%)
20 ms
40 ms
Noise correlation
Frame lag
Double beta linear
Double beta CSA
Single electron linear
Single electron CSA
Fraction of events / bin
Summed noiseless charge bias (%)
